Comments to the Author

HRQoL (Health-Related Quality of Life) is important to develop in Indonesia. Author must explain:

1. The important this instrument in introduction and why choose this instrument.
2. Permission from who develop this instrument
3. Translation process and review expert
4. How about invalid questions in discussion. Is It removed? or modified?

it's better if the Indonesian version of instrument is attached. Invalid items from the questionnaire should also be displayed because removing or replacing items from a standardized questionnaire requires a lot of consideration, especially with a minimal sample size
